

Town of Eddington

911 House Numbering

In an emergency situation can emergency services quickly find your home? If not, please consider purchasing a sign/post which displays your home address in four inch reflective numbers. Today, as a result of enhanced 911 telephone features, a dispatcher can identify the specific street address even if no one is able to provide that information. Unfortunately, valuable minutes may be lost in response time by police, fire, and ambulance, because of difficulty finding improperly or non-existent numbering at the residence.

The Town of Eddington now works with White Sign in Old Town to help give an option to residents to make sure their properties are properly marked. These signs, which meet the 911 standards, can be ordered at the Eddington Town Office. Several different options exist. Having your house properly numbered also benefits the postal service, delivery services, utility companies, etc.

If you need assistance in installing the sign, please speak to the Town Office or Fire Department.

Sign Options:

A)	(1) Single sided sign	\$10.00
B)	(1) Single sided sign with post	\$15.00
C)	(2) Single sided signs	\$20.00
D)	(1) Double sided sign with post	\$25.00
