February 9, 2010

Town of Eddington
Russell Smith, Town Manager
906 Main Road
Eddington, ME 04428

Subject: Rehabilitation Structural Overlay
Project: 16810.00
Eddington/Clifton Route 9

Dear Mr. Smith:

The Maine Department of Transportation is planning to design and advertise the subject project in the winter – spring of 2009-2010, with construction scheduled for summer, 2010.

The project is further described as follows:

Highway Resurfacing: Beginning at the Brewer-Eddington Town line and extending easterly 11.598 miles to a point 1.0 miles west of the Chick Hill Road.

After the new pavement is placed, no permit to open this segment of highway will be granted for a period of three (3) years except as provided in Title 23, M.R.S.A. §3352. The purpose of this letter is to make the necessary notifications of the project to abutters, municipal officials and occupants of the highway under the provisions of 23 M.R.S.A. § 3351. **We hereby request that you provide a copy of this notice to all municipal officials, employees and boards with responsibilities for utility and/or land-use planning/permitting, and that you post this letter on any municipal public bulletin boards, media outlets and/or municipal websites.**

If you have, plan to have or have knowledge of underground utility facilities within the limits of this project, please inform MaineDOT Region Office of their location as soon as possible in order that they may be properly considered during the design and construction of the proposed project. Properly located facilities are a considerable protection against damage from construction operations.

Should you have any questions concerns or other areas of interest, we would appreciate your comments and input. Emory Lovely is the Project Manager for this project, and he can be reached at (207) 941-4754

Sincerely,

Emory Lovely, Project Manager
Highway Program, Region 4
